Philosophy

See the branded mark of distinction and refinement as the metal temples are stamped with the original Seraphin Fleur de Lis pattern and vintage diamond shapes. These add a rich texture and coined effect to the touch. This combined with the hand-polished block acetate front, in rich layers of color, reflects an elegant mastery of color technique and design. The round eye shape looks smart on many faces. The fit and feel is sublime with the perfectly subtle keyhole bridge and the metal endpieces tying the two materials together in harmony.
